Forecast for Sunday 28 Nov 2021

Weather: Isolated snow showers are possible through morning, but generally it will be dry and bright with some cloud across the summits. Sunny spells are likely through afternoon before cloud tends to thicken into the evening.

Chance of cloud free mountain/hill tops above 700m: 60%.

Visibility: Periods of cloud above 500m or so at times through the day, but summits often clear too, most likely through afternoon. Any passing snow showers may reduce visibility to a kilometer or so.

Meteorologist's View

Details of low cloud are a little uncertain so be prepared for poor visibility and biting very cold winds up on the hills.

Forecast for Monday 29 Nov 2021

Weather: A cloudy, perhaps misty start with patchy rain or sleet spreading east for a time. The afternoon should be brighter and largely dry, but winds will become increasingly fresh.

Maximum wind: West 10-15mph increasing to 25-30mph by evening.

Chance of cloud free mountain/hill tops above 700m: 40% morning, 70% afternoon.

Visibility: Areas of cloud are likely above 400-500m through morning, although these may not be extensive. Light snow will reduce visibility to a kilometer or so for a short time.

Temperature: **Valleys:** Plus 2 or 3 Celsius rising to 6 or 7 Celsius.
At 700m: Around freezing, rising to 2 or 3 Celsius.
Freezing level: 700m quickly rising well above summits.
